

CORE RESEARCH SERIES 2026

Library Workshops for
Undergraduate Students

***Online only (2nd semester)**

Sign Up Here:

5 August

**Introduction to searching with
the library: books & articles**

This session will teach you how
to search for books and articles
in the library's catalogue,
Primo.

12 August

**Introduction to searching
with the library: databases
(finding trustworthy sources
for your assignment)**

This session will introduce you to
the UCT Libraries databases and
show you how to use them for
your assignments.

19 August

Formatting your assignment

In this session, you will learn
the basics of formatting
assignments in Microsoft
Word, including setting
margins, choosing
appropriate fonts and font
sizes, adjusting line spaces
and using headings correctly.

26 August

**AI Literacy for
Undergraduate students**

This session will assist
you in understanding the
use of AI (Artificial
Intelligence) to help you
with your studies.

2 September

Academic writing unpacked

This session will teach you how to write academically and improve your writing skills.

16 September

How to reference and cite

This session will introduce you to referencing and citation. It will also show you where to find referencing style guides to reference and cite your sources for your assignment.

23 September

How to avoid plagiarism

This session will help you understand the concept of plagiarism and its consequences.

30 September

Presentation skills

In this session, you will learn how to structure and deliver effective presentations, engage your audience, and apply techniques to manage presentation anxiety.

7 October

Referencing help: RefWorks

This session will provide you with a basic overview of the features available on RefWorks and how to get started.

14 October

Study Methods and Techniques

This session will demonstrate useful methods and techniques that will help you with your studies and succeed in academia.

Online only (2nd semester)
